Free POS

An all-inclusive hardware and software solution.

CentralPayment®
POS SOLUTIONS

CPAY POS is a full featured POS solution that offers high performance capabilities from its hardware and software components. Gone are the days of settling for mediocre solutions that are just enough to “get by”. Welcome to the new age where enterprise solutions with exceedingly fast performance are at your fingertips.

What's included in the bundle:

- ELO Bezel-free Touchscreen Monitor
- Lenovo M73 Tiny Workstation
- Bixolon Thermal Printer
- AGP Electrical Power Conditioner
- TP-Link Firewall/Switch
- AVG Anti-Virus Cloud Care
- CPAY POS Software
- Magnetic Card Reader
- Cash Drawer
- 24/7 Technical Support
- Software Configuration & Training

Packing the punch where it counts.

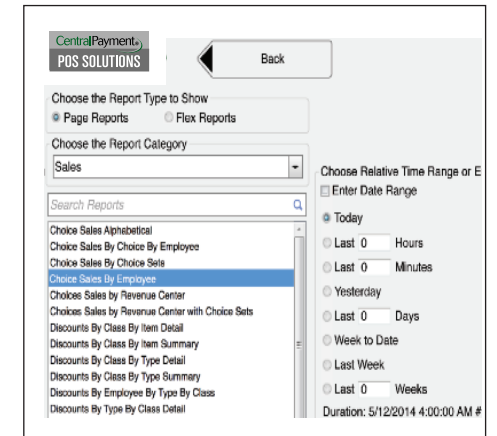

Built with the latest 4th generation Intel processor, the Lenovo unit packs more processing horsepower than any traditional POS hardware solution in the market today. The system is built with specially designed fans to run quietly while consuming the least amount of power. That means less strain on the system and extending the life of the hardware.

Simple. Powerful. Feature-rich. Having the right software to help run a business is a critical component to the overall success of the business. With CPAY POS, merchants will have the ability to quickly setup, create, and change settings right on the system. The software was created to help bars and restaurants run smoothly while consistently improving on reliability and ease of use. The intuitive interface let users spend less time in front of the computer screen and more time with guests while helping staff and managers complete tasks efficiently in a way that works best for them and their business.

Software features include:

- Table Management
- Open Tab Holds and Ticketing
- Order Firing
- Financial Overview Snapshots
- Employee Shift Management
- Ticket Combinations
- Spoilage Management
- Cross Station Messaging
- Payroll and Shift Reports
- Frequent Purchasing Tracker
- Fresh Sheets

Security without the fuss.

Merchants will have peace of mind with CPAY POS with the added security of having AVG Anti-Virus Cloud Care. Along with a direct access to 24/7 Support using AVG Cloud Care, the system will have a maintenance and worry-free anti-virus system that has an always on prowl feature that protects the systems from unwanted malware and viruses.
